Ice Melter
- ✓ **Safe and easy to use**
 - ✓ **Contains no harmful dyes**
 - ✓ **Provides cost efficient melting**

TITAN®

Ice Melter

Titan® Ice Melter is a powerful formulation of multiple ice melting salts.

Titan® Ice Melter is a balanced formulation of various ice melting salts making it safe and economical to use.

Safe on vegetation. Does not damage vegetation when used according to label directions.

Safe on concrete. The selected ingredients that make up Titan® Ice Melter do not chemically attack good quality concrete that has been designed for exposure to winter weather and ice melter usage.

Non tracking. Titan® Ice Melter does not leave an oily residue that is common with other ice melters.

Safe and easy to use. Titan® Ice Melter has been screened, eliminating the fines and overs making it easy to apply by hand or spreader.

Practical Melting Temperature of salt:

The lowest practical ice melting temperature is the temperature at which visible ice melting action takes place within 15 minutes.

Ingredients:	Lowest Melting Value	
	Eutectic Melting Point	Practical Melting Point
Sodium Chloride	- 6° F	+ 10° F
Calcium Chloride	- 59° F	- 25° F
Potassium Chloride	+ 12° F	+ 25° F

Contains:	CAS Number
Sodium Chloride	007647-14-5
Calcium Chloride	010043-52-4
Potassium Chloride	007447-40-7
